**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have been working on the telecommunication industry since 1993. If it wasn't for the competition in the industry, I won't have a career or I might not even have a chance to start my career in the telecommunication industry because it was so protected by the group and closed to the outside world.

I watched the whole industry bloomed and now collapsed, just look at this graph, we are back to square one. <https://www.theverge.com/2016/10/24/13389592/att-time-warner-merger-breakup-bell-system-chart>

We need more companies to serve our needs, not controlled by the mega rich companies and stuck with just one choice of cable service and one choice of telecommunication provider where I live or work, we want competitive providers with selections. So the future generations have better job opportunities like I had.

Also competition will keep the pricing being honest, and let the smaller companies to have a chance to compete. I worked with small providers, because they offer better customer services, they know me by name, not just a number. It is ridiculous to force me to purchase a "telephone line for \$25" because I want to use a smaller company's fiber internet services. ATT monopolize the local telephone wires at my home, so I have no choice but to pay that extra \$25 so I can enjoy the fast broadband with fiber. However, I am very bitter to feel this company practice becomes what I familiar in the form of dictatorship government, is this become our new principles in the USA?"

ATT already has my mobile business, and I don't need another telephone line at my home. Again, we are going backwards!

No more price hikes because of the monopolized situation created by our own governments!

No more stuck with just one or two large service providers!

No more forced purchase from large companies, because I want more selections from smaller service providers!

No more Dictatorship and Monopoly by the large companies!
